Re: Cox Communications- DTC 12-1

Dear Secretary Clark:

Cox Communications requests that the Department continue its confidential treatment of information provided in Docket No. DTC 12-1 for a period of five (5) years from the date of expiration of the period of confidentiality accorded in this matter. The information in question consists of per channel programming cost information. *See, Order*, DTC 12-1 (January 25, 2013) at 2-7. Cox reaffirms that the information that was accorded confidential treatment remains confidential information that should be accorded continued protection against public disclosure. The Company previously has sought and the Department has granted an extension of confidential treatment for the same type of per channel programming costs and per channel retransmission consent payments. As the Department has recognized, public disclosure of such commercially sensitive information would damage Cox's competitive position. The long term contractual relationships between Cox and its programmers cover more than single rate proceeding programming costs and require the Company to continue to maintain the above information on a confidential basis. For these reasons, Cox respectfully requests that the Department extend the period of confidential treatment in the above matter for an additional five (5) year period.

Sincerely yours,

Alan D. Mandl

cc: Sandra Merrick, General Counsel
